- About Dell

About this release

NetVault Bare Metal Recovery Plug-in Live Client for Windows 11.1 is a minor release, with enhanced features and functionality. For complete product documentation, visit http://software.dell.com/support/.

ⓘ | **IMPORTANT:** Starting with 10.0, NetVault Backup provides a web-based user interface (WebUI) to configure, manage, and monitor your NetVault Backup system. The procedures described in the user's guide for this version of the product are intended for the new WebUI. For procedures based on the NetVault Backup Console (user interface available with NetVault Backup 9.x), see the documentation for an earlier version of the product.

New features

New feature in NetVault Bare Metal Recovery Plug-in Live Client for Windows 11.1: Added support for pure 64-bit Windows®. To use the pure 64-bit version, you must use NetVault Backup 11.1 or later. (30988)

Known issues

The following is a list of issues, including issues attributed to third-party products, known to exist at the time of release.

Table 1. General known issues

Known issue	Issue ID
Unsupported Windows® features: The plug-in does not support the following features: • Fat32 partitions • Dynamic Disks	17576 (VWG-45), 17586 (VWG-55)
If you are protecting a Windows Server® 2012 that uses NTFS and ReFS volumes, the plug-in only creates snapshots of NTFS volumes. The plug-in does not currently create snapshots of the ReFS volumes.	23039

System requirements

Before installing NetVault Bare Metal Recovery Plug-in Live Client for Windows 11.1, ensure that your system meets the requirements outlined in the *Dell NetVault Backup Compatibility Guide* available at https://support.software.dell.com.

Upgrade and compatibility

For complete supported-platform information, see the *Dell NetVault Backup Compatibility Guide*.

Product licensing

To obtain the license key for your NetVault Backup Server environment, determine the NetVault Machine ID of your main NetVault Backup Server. Also identify the machine IDs of any clients running application plug-ins, such as Oracle®, MySQL, PostgreSQL, SQL Server®, and Exchange.

You can use the NetVault Configuration Wizard to install the product license keys. Alternatively, you can install the license keys from the Manage Clients page.

- Obtaining a machine ID

- Installing a license key using the configuration wizard

- Installing a license key from the Manage Clients page

Obtaining a machine ID

1 Start the NetVault Backup WebUI.

2 In the Navigation pane, click **Manage Clients**.

3 In the **NetVault Backup Clients** list, select the applicable machine, and click **Manage**.

4 On the **View Client** page, note the machine ID exactly as it appears in the **Client Summary** table.

Installing a license key using the configuration wizard

1 In the **Navigation** pane, click **Guided Configuration**.

2 On the **NetVault Configuration Wizard** page, click **Install Licenses**.

3 In the **NetVault Backup Clients** list, select the applicable machine, and click **Next**.

4 In the **Enter the license key string** box, type or copy and paste the license key, and click **Apply**.

   After the key is applied successfully, a message is displayed.

Installing a license key from the Manage Clients page

1 In the **Navigation** pane, click **Manage Clients**.

2 In the **NetVault Backup Clients** list, select the applicable machine, and click **Manage**.

3 On the **View Client** page, click **Install License**.

4 In the **Install License** dialog box, type or copy and paste the license key, and click **Apply**.

   After the key is applied successfully, a message is displayed.

5 To dismiss the dialog box, click **Close**.

Upgrade and installation instructions

- The steps required to upgrade Live Client for Windows® vary depending on the version of Windows running on the target client. For instructions, see the *Dell NetVault Bare Metal Recovery User's Guide*.

- Upgrading to NetVault Bare Metal Recovery Plug-in Live Client for Windows v4.0 or later requires that you upgrade NetVault Bare Metal Recovery Plug-in Offline Client to v6.0 or later. You must also re-create all backup and restore jobs. (18049)

- For upgrade and installation instructions, see the *Dell NetVault Bare Metal Recovery User's Guide*.

The release is localized to the following languages: Japanese.

About Dell

Dell listens to customers and delivers worldwide innovative technology, business solutions and services they trust and value. For more information, visit http://www.software.dell.com.

Contacting Dell

For sales or other inquiries, visit http://software.dell.com/company/contact-us.aspx or call +1-949-754-8000.

Technical support resources

Technical support is available to customers who have purchased Dell software with a valid maintenance contract and to customers who have trial versions. To access the Support Portal, go to https://support.software.dell.com.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. In addition, the Support Portal provides direct access to product support engineers through an online Service Request system.

The Support Portal enables you to:

- Create, update, and manage Service Requests (cases).
- View Knowledge Base articles.
- Obtain product notifications.
- Download software. For trial software, go to http://software.dell.com/trials.
- View how-to videos.
- Engage in community discussions.
- Chat with a support engineer.
