Quest® Security Guardian

February 29, 2024

Introducing Security Guardian

Quest® Security Guardian is an integrated On Demand solution that helps you keep the Active Directory domain(s) in your organization secure.

You can:

- Identify Tier Zero objects in Active Directory.

- Certify that objects are indeed Tier Zero and, when Quest Change Auditor version 7.4 is integrated, protect them against unauthorized or accidental modification or deletion.

- Run pre-defined Security Assessments to identify vulnerabilities in Active Directory and create your own Assessments.

- Investigate Findings for Tier Zero objects, vulnerabilities identified through Assessments, and Critical Activity from On Demand Audit.

- Have Findings forwarded to a SIEM tool and alerts sent to selected email recipients.

Incident response management

Quest Operations and Quest Support have procedures in place to monitor the health of the system and ensure any degradation of the service is promptly identified and resolved. On Demand relies on Azure and AWS infrastructure and as such, is subject to the possible disruption of these services. You can view the following status pages:

- Quest On Demand: https://status.quest-on-demand.com/

- Azure Services: https://azure.microsoft.com/en-ca/status/

- AWS Services: https://status.aws.amazon.com/

System requirements

The following web browsers are supported with On Demand:

- Microsoft Edge
- Google Chrome (latest version)
- Mozilla Firefox (latest version)

Additional component requirements

Component	Purpose
Hybrid Agent	Gives Security Guardian access to the Active Directory domain(s) that you want to keep secure.
Quest Change Auditor (via On Demand Audit)	Sends Active Directory events to On Demand Audit for reporting in Security Guardian Findings and allows you to protect Tier Zero objects. **i** **NOTE:** A minimum of version 7.3 is required to send critical activity events to On Demand Audit, and a minimum of version 7.4 is required to protect Tier Zero objects.
SpecterOps BloodHound Enterprise (Optional)	Identifies Tier Zero assets in your organization's Active Directory domain(s), which you can monitor and assess for security vulnerabilities in Security Guardian. **i** **NOTE:** If BloodHound Enterprise is not configured, Security Guardian will be used as your organization's Tier Zero provider once the Hybrid Agent is configured.
SIEM solution: • Microsoft Sentinel • Splunk Cloud or Enterprise (Optional)	Allows Security Guardian Findings to be forwarded to a configured SIEM tool for further analysis **i** **NOTE:** Regardless of whether your organization uses a SIEM solution, you can also have Finding alerts sent via email.

Product licensing

Quest On Demand is a Software as a Service (SaaS) application where application software is hosted in the cloud and made available to users through quest-on-demand.com.

Use of this software is governed by the Software Transaction Agreement found at www.quest.com/legal/sta.aspx and the SaaS Addendum at www.quest.com/legal/saas-addendum.aspx. This software does not require an activation or license key to operate.

You can sign in to Quest On Demand as a Guest user and sample the solutions the product can offer. As a Guest user, you can add your Azure AD tenant and look for problems that can be solved by Quest On Demand. To sign in as a Guest user, go to quest-on-demand.com and click **Continue as Guest**.

Trial licenses are available. To enable a trial license, you must use a Quest account to sign up for Quest On Demand. Use one of the following procedures:

- To enable a trial license with an existing Quest account
- To create a Quest account and enable a trial license

To enable a trial license with an existing Quest account

1. Go to https://www.quest.com/on-demand/
2. Scroll down to the module you are interested in and click **Try Online**.
3. On the Free Trial of <Module Name> page, click **Sign In for your Free Trial**.
4. Fill in your Quest account credentials and click **Sign In**. The Welcome to Quest On Demand page opens.
5. In the **Add organization name** field, enter a name for your Quest On Demand organization.
6. In the **Select Region** field, select the region where you want your data to reside.
7. Click **Create New Organization**.

You can now add your Azure AD tenant and begin using the module. See the Global Settings User Guide for more information on working with Quest On Demand.

To create a Quest account and enable a trial license

1. Go to https://www.quest.com/on-demand/
2. Scroll down to the module you are interested in and click **Try Online**.
3. To try online, you must create a Quest account and then sign up for Quest On Demand.
4. Create a Quest account.
   a. Click **Create a Trial Account**.
   b. Fill in the fields on the Create Account page. Note that the email and password entered here will be the credentials you use to sign in to Quest On Demand.
   c. Click **Create Account**. The "We've sent you an email" page opens.
5. Sign in to Quest On Demand.
   a. Go to your email account and open the email from support.quest.com. Click on the verification link. The Welcome to Quest On Demand page opens.
   b. In the **Add organization** name field, enter a name for your Quest On Demand organization.
   c. In the **Select Region** field, select the region where you want your data to reside.
   d. Click **Create New Organization**.

You can now add your Azure AD tenant and begin using the module. See the Global Settings User Guide for more information on working with Quest On Demand.

Third-party contributions

This product contains the following third-party components for Security Guardian. For third-party license information, go to https://www.quest.com/legal/license-agreements.aspx.

> **NOTES:**
>
> - For third-party contributions specific to On Demand Audit, refer to the On Demand Audit Release Notes.
>
> - For third-party contributions specific to On Demand Global Settings, refer to the On Demand Global Settings Release Notes.

Azure.Identity 1.10.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Identity 1.3.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Identity 1.5.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Identity 1.7.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Identity 1.8.0	Use of this component is governed by the MIT Template 2020 license. Copyright © Microsoft Corporation
Azure.Messaging.EventGrid 4.9.0	Use of this component is governed by the MIT 1.0 license.
Azure.Messaging.Eventhubs 5.2.0	Use of this component is governed by the MIT N/A license.
Azure.Messaging.Eventhubs 5.2.3.1	Use of this component is governed by the MIT N/A license
Azure.Messaging.Eventhubs 5.6.2	Use of this component is governed by the MIT N/A license.
Azure.Messaging.Eventhubs 5.3.1	Use of this component is governed by the MIT N/A license.

Component	License or Acknowledgement
Azure.Messaging.EventHubs 5.6.0	Use of this component is governed by the MIT N/A license.
Azure.Messaging.EventHubs 5.6.2	Use of this component is governed by the MIT N/A license.
Azure.Messaging.Eventhubs 5.9.2	Use of this component is governed by the MIT N/A license.
Azure.Messaging.EventHubs.Processor 5.6.2	Use of this component is governed by the MIT N/A license.
Azure.Messaging.EventHubs.Processor 5.92	Use of this component is governed by the MIT N/A license.
Azure.Messaging.ServiceBus 7.10.0	Use of this component is governed by the MIT 1.0 license.
Azure.Messaging.ServiceBus 7.13.1	Use of this component is governed by the MIT 1.0 license.
Azure.Messaging.ServiceBus 7.15.0	Use of this component is governed by the MIT 1.0 license.
Azure.Messaging.ServiceBus 7.7.0	Use of this component is governed by the MIT 1.0 license.
Azure.Messaging.ServiceBus 7.8.1	Use of this component is governed by the MIT 1.0 license.
Azure.ResourceManager.Kusto 1.3.0	Use of this component is governed by the MIT N/A license.
Azure.Storage.Blobs 12.10.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Storage.Blobs 12.11.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Storage.Blobs 12.13.0	Use of this component is governed by the MIT 1.0 license.
Azure.Storage.Blobs 12.13.1	Use of this component is governed by the MIT 1.0 license.
Azure.Storage.Blobs 12.14.1	Use of this component is governed by the MIT Template 2020 license.
Azure.Storage.Blobs 12.16.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Storage.Blobs.Batch 12.7.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Storage.Blobs 12.9.1	Use of this component is governed by the MIT Template 2020 license.
Azure.Storage.Blobs.Batch 12.7.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Storage.Queues 12.11.0	Use of this component is governed by the MIT 1.0 license.

Component	License or Acknowledgement
Azure.Storage.Queues 12.14.0	Use of this component is governed by the MIT Template 2020 license.
Azure.Storage.Queues 12.15.0	Use of this component is governed by the MIT Template 2020 license.
coverlet.collector 3.0.3	Use of this component is governed by the MIT Template 2020 license.
coverlet.collector 3.1.0	Use of this component is governed by the MIT Template 2020 license.

Quest creates software solutions that make the benefits of new technology real in an increasingly complex IT landscape. From database and systems management, to Active Directory and Office 365 management, and cyber security resilience, Quest helps customers solve their next IT challenge now. Around the globe, more than 130,000 companies and 95% of the Fortune 500 count on Quest to deliver proactive management and monitoring for the next enterprise initiative, find the next solution for complex Microsoft challenges and stay ahead of the next threat. Quest Software. Where next meets now. For more information, visit www.quest.com.

Technical support resources

Technical support is available to Quest customers with a valid maintenance contract and customers who have trial versions. You can access the Quest Support Portal at https://support.quest.com.

The Support Portal provides self-help tools you can use to solve problems quickly and independently, 24 hours a day, 365 days a year. The Support Portal enables you to:

- Submit and manage a Service Request
- View Knowledge Base articles
- Sign up for product notifications
- Download software and technical documentation
- View how-to-videos
- Engage in community discussions
- Chat with support engineers online
- View services to assist you with your product
